

Assess and analyze the performance of va women in village development in Rasht city (central part of the case study)

Zahra MehrBakhsh*,

In the past, women and increase their involvement in social activities, Non-acquisitive assigned tasks were defined in the assessment of relevant activities, The family was put to the task. . Today, in the country, On women, Passage of the roles assigned to the role of researcher has occurred and experience of women in the acquisition and spread out. . In literature development in line with the evolution of the gender development index In line with the equality and empowerment of women in social status and balance of human resources and organizational cooperation between the discussions reliable. After the seventies spiral Act "elected councils and mayors." Experience a council of women in rural and more importantly VA's presence in the organization as executive director of the village, Signs of their success in rural executive management. Nevertheless, the presence of women in the management of rural areas revolve around a decade And resolve this issue be investigated to what extent women have Please be successful as a village in rural development This is the main purpose of this study was to investigate the role of village administrators in rural development. Type of research is descriptive - analytical and documentary methods to achieve the desired objectives of the survey were used. The study is the central rural city of Rasht. To evaluate the performance of women in 12 villages in the central part of which has been the the village administrators man And 12 villages have elected the village administrators were women and among them 370 questionnaires were distributed among the villagers. The findings show that women are different in different parts of rural development has been performance And the highest performance and lowest in the rural context of their performance in the field of economy. But overall VA in many cases surpassed men and women in relation to the degree of satisfaction is high.

Keywords : -village, Performance, Rural Development, Central District
