

The role of local administration in Sustainable Rural Development Rural Lacan

Mohammad Taghizadeh Seghaleksari*, Dr. Mohammad Baset Ghoreishi,

Towns management performance measurement should be done according to social factors and factors of production; Because these two types of factors are shaping the rural management structure. But since Iran villages, work and social life so intertwined it virtually impossible to separate the dividing line between social processes And manufacturing processes to be made, for a combination of production factors and social factors have been studied here. It should be noted that according to studies carried out in Iran so far in Rural Management system, It can be said that in terms of its scientific management and management books mentioned in the villages so that Iran does not apply There is incomplete or quasi-management and what kind of management that factors in Rural Management There are several factors that are considered for compilation here. In this descriptive study - an analysis of the role of local management practices library and field in rural development The purpose of research is to identify the activities and functioning of rural development and local management functions that are included with this hypothesis: 1-manage local agricultural sustainability affects the villagers of Lacan . 2. Local management is effective in expanding the activities of the villagers of Lacan. 3. The local management to prevent land use changes affect villagers of Lacan. 4-manage local villagers of Lacan affect physical development. is. The study is due to the villagers of Lacan Morgan standard 382 villagers were ed. The results show that the village Lacan lot of work has been done in Administration Among the physical changes that can be cited other aspects.

Keywords : rural management, rural development, rural Lacan
