# **Design of Residential & Recreational Complex Compatible with Nature (Masal, Olasblangah)**

Seyyede Fatemeh SafaviMirmahalleh\*, Dr Mohammad Mehdi Raeissamiei,

**In this study, after reviewing and recognizing the importance of tourism and the tourism industry in the world today as well as Iran's position in the industry, by expressing the crisis identified, including discrete bond between man and nature over time, the reconciliation between development and the environment with human contribution has been addressed. Masal is one of very beautiful cities with developing forest areas and its agriculture potential is significant. Using qualitative methods in this study is dominant. Using Tables - maps - charts - data collected through field data and analytical tools to extract data using statistical software spss, questionnaires will be discussed. As a new function for tourism development due to cultural attractions, historical and natural in this section can be used for investment, create jobs, balance relative to income distribution and employment of local people, attract more tourists, increase income and employment generation in the region is stable**

**Keywords : Tourism - olasblangah -Compatible with nature - Masal- residential& recreational**
