

# The impact of passengers home on resident of tourists in anzali city

Zahra khoshnam\*,Mohamad Baset Ghoreshi,

while Tourism states that economic prosperity and social development .However, objective observations tourist attraction in the cities of Iran, such as Bandar Anzali. It is noted What travelers living around the streets with huge advantages and benefits for the city. Therefore, in order to be part of the planning system, and the development of tourism in practice it would be considered. The aim of this study is to analyze the growth in passengers house or shack house in the town of Bandar-e Anzali in Gilan. Because the city due to tourist attractions and capabilities has always chosen the head of domestic tourism in Iran.So it is necessary to look more closely at this dimension And plan and manage the implementation of housing programs, especially during high tourist traveler reviews.This study was conducted to evaluate the fit between tourism and residential centers This study has shown that despite the large number of passengers on many months of the year there is not enough accommodation centers .This study is focused on continuing to investigate the home of passengers on Bandar Anzali city. The questionnaire was designed. And then to surveys of tourists were living in residential centers. The research population comprised Visitors to the Anzali City about 384 .And the results show .Tourists tend to stay at home travelers because the price is appropriate. And tourists believe that if home travelers improving quality and features again choose to stay at this possibility.
