# Futures contrast Salafis and Shiites

MohammadSeddighi\*,

**Abstract** Islam world with a range west Africa to the east asia with a wide region with Prominent features such as richness of energy, multiple geopolitical areas, abundance population and different religious is suppressing it s properties with a lot of rigorism and terrorism due to ethno-religious difference. Among this tow main and major groups i.e. shia and sunni have to overcome this seperaton and struggles that generally have external resources in order to use their religious properties and their land in order to promote the globalization of Islam. But one of the issues that prevent this unity is religious differences ( sometimes inside and sometimes outside the Islamic world). So, this research by referring to shia and sunni reference books, specialized scientific articles and quarterlies is finding the answer of these questions that is developing virtual space affective on interaction of geopolitic selfism and shia and is abuse of world power selfi elements affective on their geopolitic interation with shia? The goals of this thesis also consist of recognizing thoughts and the belief of different shis and self groups and the interaction between them, recognizing and analyzing the effective agents on selfi communications and shia and also providing suitable strategies in order to prohibiting the sgarp contrast of selfies and shia. Analyzing the present situation and forecashing the future based on scientific projects is necessary in order to having a correct comprehension current situation and future struggles. In this way re cognizing the Islam world and it s countless capacities, recognizing shia, sunni and selfies and their positive and negative dynamic and having different scenarios for every event is so essential and helpful.

**Keywords :** Keywords: Selfie, Shia, Future research. Geopolitic, Interaction, Virtual space.
