

# **The relationship between return on equity and return on investment with a trading volume of listed companies in Tehran Stock Exchange**

mohamadreza hasanpour\*,Dr. Khiaviy khaligh parisa,

**The aim of the ordinary shareholder wealth management company Ratios Return on Equity Hdakrsakhtn best Myarsnjsh success or failure of the company's management in achieving this goal. The aim of this study was to investigate the relationship between return on investment and return on equity trading volumes in listed companies in Tehran Stock Exchange. The research is the applied regression was used to test the hypotheses. The sample consisted of 61 companies ranged 2010-2014 to be. The results show that between equity returns with a turnover in companies during the stock market over the past five years, the most significant relationship to the transaction have been there and the return on investment and trading volume relationship does not exist. Also, between any two variables return on equity and return on investment with the turnover of equity returns only has significant relationship with the trading volume**

**Keywords : Return on investment, return on equity, the volume of transactions.**
