

# Analyzing the urban transportation Rasht Valley, with emphasis on the bus lanes

taghi babaei\*,

Transportation and displacement of people and goods to human activity. Every society and have a major impact on people's life and social interaction patterns . Bus that one of the most important public transportation systems of urban comes in all countries, including Iran plays a major role in the urban trips daily and citizens . the issue of the present study diagnose problems existing in public transport fleet aims to organise a bus system , which is descriptive and analytical method , the number of 384 number questionnaires distributed among those using a bus . Currently Rasht has 21 bus line in the form of 5 axis is different the 6 o ' clock in the morning till night : 30 22 at work. of the most important problems using a small number of bus network , waiting for the bus , the crowd in the bus , the travel time , distance stations up . Unfortunately, Rasht bus system in order to attract any more , not only for the trip , but failed in the existing standards and criteria and public transport system
