

Explain the function of the collective life the city in the interactions enhancement.

Ali Omidizadeh*,

Abstract : In addition to the individual's human needs in life that are more dependent on the world of this world than the inner desires and his intrinsic exploration of the world and the search for the meaning of the universe, man needs a space in which to see himself and see his sociality, show and use it. Therefore, one can "The tradition of gathering in biological complexes dates back to the history and formation of the first human biological complexes. From the distant past to the present day, cities have always had spaces for community gathering and dialogue." City issues have existed. The field actually has a static or static location in a city block. The square is an urban space, and perhaps because of its special characteristics one of the most significant urban spaces it counts. Considering the importance and necessity of the city's collective life in increasing the social interactions of citizens and the wide-spread dimensions of the functioning of city's collective life, this paper has tried to explain the functioning of city life in increasing the social interactions of citizens. Case Study: Four Kingdoms of Lahijan, which is considered as a grappling point in the city's activity and communication system. The goal of this research explains the function of city life in increasing the social interactions of citizens and finding effective ways to increase social interactions of citizens. The research method is descriptive-analytic with emphasis on the questionnaire and information gathering were based on library studies (field observations). The collected data were analyzed using SPSS and Excel software, and the method statistical tests such as Pearson Correlation Test and T-test of single sample have been used to prove the hypotheses. Based on the study method, explanation and descriptive analysis and analysis, the result of the statistical test is shown. With the revitalization and revitalization of the Chahrpadshahan Square, we will strengthen the social interactions of the citizens, as well as strengthen existing utilities, which will increase the city's collective life, as

well as the field of It does not have the vitality, the spatial determination, and the flexibility that needs to be taken to raise these groups.

Keywords : Keywords: collective life, urban space, social interactions, Lahidjan fourfold field.
