# The Design Of Rasht City Hall Via Social Sustainability Approach

hadiseh rabi\*,Mehrdad.Razjoo,

**Abstract** The main concept of this project is social and natural relationship between citizen of cities. City Hall as a Bazar can play this role for cities. Now a days, modern cities has a rigid forms and mashin characters, in such this places people can't have a good relationship with each other, but in old cities people meet each other in such public places like Bazar and Squares. Governments spread their rules in these places. Now City Hall in modern city can have this role and can be a monumental place for citizens and governments. Social Sustainability is one of approaches in architecture that can be useful in designing of City Hall. Then this project uses concepts and meaning of Social Sustainability for having a democrat spaces and forms in design. In this situation architecture can help society to have a liberal place for gathering and speaking with each other.

**Keywords :** Key words: City Hall, Social Sustainability, Democracy.
