## The Legal Provisions Governing the Founding General Assembly in Joint Stock Companies

sedigheh roshan\*, eisa moghadam,

Founder of the General Assembly is a gathering of a company stockholders and a group of people who create the company body corporate. Founder of the General assembly is the highest decision-making center of the company and also its regulations assembly. Actually, Founder of the General Assembly resembling the legislative assembly in a country that the company affairs are run via it. Founder of the General Assembly is formed before founding of the company and its duties include investigating of founder's reports and their approval, subscription attainment of the whole shares of the company and necessary paying, the approval of the company statutes project and if necessary its reforming, choosing the first managers and inspector or inspectors of the company, determining mass-circulation newspapers which any type of invitation and next announcements for the stock holder till forming the first normal general assembly are published on them, approval of founders' non-cash income and benefits that some of the stockholders have demanded. In the first session, the quorum to form Founder of General Assembly includes stockholders who own more than half of the stock and are present in the meeting .If in the first session this rate hasn't been obtained, in the second or third, the stock of the company is formed by a simple majority of vote. Enough quorum for obtaining the vote is two of the three of the presence vote in the meeting. Different issues are proposed about the assembly . Whether the formation of this assembly in the joint stock company is to be raised or not? What's the duty of Founder of General Assembly? Does Founder of the General Assembly have the authority of changing statutes project or not? How's quorum recognition and decision making? What's the grantee of non-observation execution? In this thesis it's been tried to investigate these issues and other issues that are proposed.
