# **The mediating role of knowledge management in the relationship between social asset and entrepreneurship in governmental companies**

mehran yahaghi\*,

**The main purpose of this study is to investigate mediating role of knowledge management in the relationship between social asset and entrepreneurship. The method of research is descriptive and its goal is functional. The data gathering method is field study and questionnaire is used as a tool. In the present research, statistical population includes 16 governmental companies of Gilan Province which are ed in census without sampling; using data analysis it was revealed that, at the level of 95%, structural asset has significant relationship with relational asset, cognitional asset, and knowledge. Also there is meaningful relationship between relational asset and knowledge management, and between knowledge management and entrepreneurship. And finally the mediating role of knowledge management had been confirmed in the relationship of social asset and entrepreneurship.**

**Keywords : Structural Asset, Relational Asset, Cognitional Asset, Knowledge Management and Entrepreneurship**
