
Parental influence in preventing the victimization of children

ali pirjavanan*, vahid zaree sharif,

Children as the most vulnerable of society, Always in danger of victimization, with talk of prevention however, The victimization of children by parents of the debates in recent decades entered the field of criminology is what this issue was considered in this study today dismissed criminal and due to the limitation of coercive institutions, the prevention participatory, community-based and non-criminal action the family has been emphasized. This prevention with a focus on families and especially parent's takes rape iran criminal policy and legislation in the form of law to protect the children and avah and support laws is another consideration. So special attention to the children's parents and family are special occasion psychological and physical needs than adults are. But in the case of differential preventive measures there are a number of problems preventing the victimization of children and therefore requires a special program and control for actions and preventive measures.

Keywords : KeyWords: Children, Parents , Prevantion , Non- Pental , Legislativ.
