

The role of the free zone of Amir Abad in geoeconomic development of Mazandaran province

ali ramezani*,

Abstract The free zone is a certain territory of the mainland, in which free trade with the rest of the world is permitted under certain and different laws of the mainland. By creating incentives and exemptions, these regions are trying to attract foreign investment and use it to produce export goods. Considering the issues facing the Iranian economy and its impact on the levels of political analysis of the country, it is possible to provide suitable strategies for the promotion and prosperity of free trade areas in various provinces of the country, including Mazandaran. In the meantime, geo-economic zones, in fact, study economics and the relationship between geography and economic power of countries. Therefore, the purpose of this study was to investigate the role of Amirabad free zone in the development of geoeconomics in Mazandaran province. The statistical population of this study is all free trade zones of Iran. In order to study the data, descriptive-analytical method has been used. Using papers and documents, maps, statistics and reliable reports, the statistical sample size is analyzed including free areas of Amirabad, Noshahr, Fereydunkenar and economic areas of Mazandaran province. . In order to analyze and analyze the data, the outputs of the export and import statistics of each port and its comparison with the economic situation of the province during the years 95-94 have been used. The results of this study showed that Amir Abad free zone has a significant effect on geoeconomic development in Mazandaran province. On the other hand, these results indicated that the development of Geo-Cancer of Mazandaran province is also dependent on other ports like Noshahr and Fereydunkenar. Here are some suggestions for improving business performance in these areas. **Keywords:** Free zones, Geoeconomic development, Amirabad Free Zone, Noshahr, Fereydunkenar
