

# **The impact of Imam Khomeini Relief Committee in job creation activities to prevent the migration of rural clients (Case study: city of Rasht)**

Ibrahim Moradi\*, Dr. J. Azizi,

**The objectives of entrepreneurship, sustainable rural development and in this regard to address rural industries, process industries and tourism industry (tourism) and job creation and crafts such as carpet weaving or domestic primary production that reduce rural migration to cities. In the meantime, the Imam Khomeini Relief Committee with their employment activities could reduce rural migration to cities. The results show that the rural employment situation in Rasht in two periods: before and after the success of the organization's relief activities Employment Committee indicators of living standards and welfare of their subjects. Job security, changes in housing, changes in the pattern of food consumption and durable goods, the partnerships, the relative changes in education and continue to live in the village obvious consequence of industrial areas, rural workers have been on. Expanding employment opportunities to the rural population is increasing but the working families (spouse and children), motivate the impetus to job creation activities, the committee has not had much desire to emigrate. Job security situation on the positive changes that increased job satisfaction. However, the majority of workers in manufacturing plants are looking for another job.**
