

The role of woman empowerment in development village tourism city fooman

samaneh royatvand*,

Abstract In the opinion of the experts, achieving the goals of sustainable rural development without the participation of residents of these areas will be impossible. Nevertheless, various social and cultural factors hinder the participation and participation of villagers in the field of social activities. Creating social empowerment of villagers, through the development of tourism, can play an important role in overcoming the insufficiencies and improving the interactions and social connections of the inhabitants of these areas. Accordingly, the aim of this study was to investigate the role of women empowerment in tourism development in Fouman County, Guilan province. The nature of this applied research; the method of its implementation is descriptive-analytic; and its type is a survey. The rural women of Fouman County constitute the statistical community of this research. The statistical sample of this study is the Morgan table and 379 women. The results of this study indicate that tourism has a significant role in empowerment of rural women in Fooman County, so that the results show that women have had a lot of skills due to activities in the tourism sector, in the past, women in agricultural activity and, on the other hand, in the production of materials But women today play a large part in many activities. **Key words:** empowerment, women, tourism, tourism development, Fouman County
