
Investigating the Relationship between the Effect of Information Disclosure on Company Performance in the Companies Accepted in the Tehran Stock Exchange

Sattar Rastgoo*,

In this research, we examined the relationship between the quality of disclosure of information on the performance of the company in the companies admitted to the Tehran Stock Exchange. For this purpose, using a systematic elimination method, 100 companies accepted in the Tehran Stock Exchange during the period 1391 to 1395. Sample title ed. Estimates are estimated using a combination regression method. To achieve this goal, a basic hypothesis has been developed. , According to the results of model estimation, there is a positive and significant relationship between the quality of disclosure of information and the firm's performance. As a result, the research hypothesis has been confirmed.

Keywords : Key words: Information disclosure quality, company's performance
