

Analysis of the geopolitics of the ethnic groups of the western border region

mohamad taghi bakhshi zadeh*,

Abstract In today's world, when countries seek to secure their own interests in other territories and countries, the emergence of border disputes is inevitable, and if a country is in terms of geopolitical factors in conditions that are favorable and higher than others, it is necessary for the neighbors to gently and long Enormous power will go away. So, given the growing importance of each country to prevent border conflicts with other countries, and in particular its neighbors. Understanding the geopolitical factors and geographic environment of that land is vital to neutralizing these disparities. Because if countries are not mindful of these factors, then the country may always face threats other large and criminal powers and if there are no good measures on the international scene, compensation and injuries and The resulting damage is extremely difficult. Geographic location can affect the political geography of the tribes of the western border region. Cultural issues can affect the political geography of the tribes of the western border region. Then, the aims of studying the geographical location and dispersion of the Iranian frontier ethnic groups in the west of the country and the political conditions, regional analysis of the Iranian frontier communities in the west of the country, and the dispersion of the geopolitical boundaries of Iranian ethnic groups in the western part of the country. **Keywords:** geography, political geography, ethnicity, identity, geopolitics, border.
