

Designing a safe house for volleyball girls with an entrepreneurial approach

Masoumeh Sotuhian*, Mehrdad Amir Nejad Mojdehi,

The girl's escape the house reflects this that vast majority of who experienced at least one of the beating, insulting, intensive care, imprisonment, and mockery, sexual exploitation by the supervisor or other members of the family, in case girls return to their families,, they will not only be of no help to these girls due to the fact that they do not change the previous conditions and lack of training in dealing with their family members, but also the earlier unfavorable conditions make it harder and it will make the escape again stronger. Many of these girls are afraid to come back home. They see their beatings, disgrace and humiliation the family, especially fathers and brothers, the reason of their displacement. Young and teenage girls are at high risk after escaping home. These girls are wandering with many mental and psychological problems in the streets without shelter. Failure to pay attention to their future can lead to dangerous and dangerous conditions for our society. To this end, the creation of shelters for these girls in such a way as to meet the standards required and can educate and entrepreneur for them, it is felt very much. This research is descriptive-analytic and in three chapters it attempts to design a safe house for runaway girls with an entrepreneurial approach .The girls are trained at the center and can prepare for a healthy lifestyle and entry into their community.

Keywords : escape, runaway girls, safe house, entrepreneurship
