

# **Study of Coastal Tourism Development in Free Trade Zones of Anzali and Qeshm**

Fakhri zohari\*,

**Abstract** The development of urbanization and the advancement of the industry has led to the removal of man the natural environment, For this reason, the demand for interaction with natural environments, especially marine environments has increased. The beauty and charisma of nature, the status of marine environments and experiences based on these, reflected in coastal natural environments, The demand and value of these environments have increased for tourism. Iran also has many potentialities in the field of tourism, especially coastal tourism Therefore, the aim of this study was to investigate the capabilities of coastal tourism in two free trade zones of Anzali and Qeshm and its development. By collecting library information and objective observation and studying the power and facilities of tourism in the two regions, we concluded that attractions and amenities and infrastructure of tourism in Qeshm Free Zone were more than Anzali Free Zone, which led to The increase in the development of coastal tourism in the southern region of the country is higher.
