# **Analysis of establishment of Sefidrud industrial city of Rasht on spatial structure of Rasht city**

alireza rahman talab vaghei\*,

**Abstract** In this research, 8 variables were first identified by studying theoretical foundations and after approval by the supervisor, they were given to the experts to be confirmed by them. These variables include: "1. Demographic changes; 2. Physical growth; 3. Economic structure; 4. Employment rate; 5. Urban land paradigm in the adjacent region; 6. Educational structure; 7. Health infrastructure; 8. Communication paths." Then, by designing a pairwise comparison matrix, experts were asked to express their views on the research variables. Since the Interpretative Structural Modeling Technique (ISM) was not familiar to the experts, he was interviewed with half-guided interviews. The results showed that the establishment of the industrial city of Sefidroud in Rasht has affected the variables of "population changes", "physical growth" and "economic structure". **Keywords:** Establishment, Sefidroud industrial town of Rasht, Spatial structure, Rasht city.

**Keywords :** Keywords: Establishment, Sefidroud industrial town of Rasht, Spatial structure, Rasht city.
