hamid nasiri\*,zohre rahmani,

**Abstract** Despite the gradual countries to join the WTO and the international organizations and the reduction of Tariff rates and competition in domestic and foreign markets has brought advantages and problems. The most significant of these problems can be paid to the risk of dumping because it eliminates tariffs are dumping. By removing the tariffs and to facilitate access to the markets of other countries easily done. Some countries have also started to export subsidies, which led to the World Trade Organization to impose "anti-dumping agreement" to use. Based on this agreement when we can say that a product is just dumping into another country. The export price of the product exported one country in another country in the ordinary course of business of the price of similar products intended for consumption in the exporting country is less. The World Trade Organization has been established on the basis of free and fair competition. But some countries try in non-compliance with the agreements that in this study the ways to overcome the weaknesses and causes thereof. **Keywords** Dumping; subsidy; WTO; unfair competition; anti-dumping agreement
