

# **The Impact of Social Responsibility on Risking and Value of Companies Admitted in Tehran Stock Exchange**

Shirin Haghghatjoye Fashtami\*, Dr. Seyyed Mozzafar Mirbargkar,

The stock market is a collection site for savings and liquidity of the private sector in order to finance investment projects. And on the other hand, it is a formal and reliable reference that stacked savings holders can search for a relatively safe and secure place for investment and apply their funds to invest in companies. But in some cases mismanagement and the inadequate use of resources and facilities have reduced the value of companies and reduced their financial ability. So the main objective of this research is, The Impact of Social Responsibility on Risking and Value of Companies Admitted in Tehran Stock Exchange. This research is descriptive in nature and applied in terms of its purpose. The statistical population of this study is all active companies listed in Tehran Stock Exchange. Using a screening method, 78 companies were ed during the period 2011 to 1395 to test the research hypotheses. Estimation of the research model in the form of panel data and analysis based on the fixed effects model and random effects by Eviews and Spss software based on the combined data. The findings of the research showed a negative relationship between corporate responsibility and risk taking. The role of the company's risk mediation role in the relationship between corporate responsibility and corporate value was also confirmed.
