

# **Designing Centre of Cultural and Artistic Creations for Children and Youngsters Emphasizing on Creativity and Mind Growth**

Katauon Joharpass\*,seyed Mehdi amirkiae,

**In the past years due to high number of children and youngsters, instructional and cultural places only had their importance by quantity and there was no orientation for designing aspects. And that led to lack of appropriate designing within cultural and artistic places for children and youngsters or those places had been inaugurated with other applications and their needs and effective factors of their mind growth had been ignored. Hence, the survey in hand attempts to determine effective guidelines on children and youngsters' mind and creativity. Therefore, initially by determining various factors influencing on their mind and creativity growth and observing the affects these factors on elementary and 1st and 2nd grade of high school students of Bander-e-Anzali can determine that the aforesaid factors can certainly be influential on their mind and creativity growth. And finally, through determination of these factors and applying them, the final design for creation a cultural centre has been schemed. Also in this survey, descriptive-analytical method has been applied and derived factors have been compared with each other via correlation method. The outcome results denote that children and youngsters' reaction increase toward environmental motivations effects on the quality of their creativity. It seems that physical environment in accordance with children and youngsters' spirits is an effective factor on planning and developing their mind related information and increasing creativity.**

**Keywords : Key words: creativity, children and youngsters, mind growth, cultural and artisticcentre**
